Council Returns School Budget 2nd Time To Board and Recommends Public Hearing

The Miners: They're in Again

In the vanguard of the 195,000 soft coal miners who went back to work as the result of the new Lewis pact were these three foremen riding into the mine at Montour Number Ten, Library, Pa. (NEA Photo).

Gaffken Advises Stock Investments For Bigger Gains

Lions Hear Broker Tips About Market Being More Profitable Investment

Members of the Kingston Lions Club, meeting at the Governor Clinton Tuesday evening, were addressed by William Gaffken, of Morgan, Davis & Company, who spoke on the New York Stock Exchange and how it affects the public.

An army veteran, who saw service in the European theatre during the war, Mr. Gaffken gave a highly informative and instructive talk enlightening the members on the seemingly incomprehensible intricacies and functions of the stock market.

Morgan, Davis & Company, he said, was a branch office of a stock exchange firm, and he explained that one member of every firm is also a member of the Stock Exchange, giving each firm representation at the New York Exchange.

The Kingston brokerage office, he added, maintains two direct wires to New York. One is known as the stock ticker wire, and tabulates every trade made at the Exchange with its direct quotations enabling the local office to follow the rise and decline of all stocks and to see what the stock is selling for.

The other is used for market orders and sales, and enables transactions to be carried out within a few minutes period. All sales involving over 100 shares are sent over this wire.

Most factors in the stock market, Gaffken said, depend on the volume of the trade. Brokers desiring to purchase securities in the Stock Exchange have to pay approximately \$65,000, he added, and in the twenties when stocks were rising sky high costs cost closer to a quarter of a million dollars.

Advices Investment

The stock market is way out of line with the rest of economy in the country right now, Mr. Gaffken ventured. Prices in real estate and other divisions are all inflated now. The best place for trade and investment today, he added, is in the stock market where one can get good buying assets for a few cents on a dollar, and garner considerable profit via interest. He admitted that he couldn't see why so many people were depositing their money in banks for small interest when they could invest in stocks at a much higher rate of interest and get better protection of dividends.

The risk involved in stock investments, Mr. Gaffken said, is well compensated by the higher income return.

Tips on Selling

People who decide to buy stocks make the mistake of letting them mature too long, he cautioned. They forget that if they hold them too long the economy of the country may take a turn for the worse and the value of their shares will decline considerably. He suggested, Continued on Page Five

Ferry Traffic Is 1,580 Cars; Bridges Also Score

155 Job Placements Are Made Locally State Office Says 195 New Applications Are Made During June

Statistics revealed this morning by George J. Stanton, manager, New York State Division of Unemployment and Placement Service, Kingston branch, show that during the month of June 2,076 people applied to that office for information of one sort or another. New applications for jobs totaled 195.

Mr. Stanton's office referred 276 persons to various jobs during that month, and of this figure 155 were placed. More than 45 other jobs were filled due to cooperation with neighboring and New York city offices.

At the end of June, Stanton's files listed 745 active applications for that month, a decrease of 247 from the previous month. These figures include the Kingston-Tilghville districts in Ulster county.

In the Saugerties district, records reveal that 304 persons applied to the branch office for information in June. Thirty-nine new applicants were registered. Of the 31 people referred to jobs in the area, 23 were eventually placed. The 157 active applications on file at the end of the month showed a decrease of 31 as compared with the month of May.

In addition to the figures quoted above, in instances where the placement service was able to place applicants, a total of 67 persons reported to the Kingston office.

Here's Latest: Celestial Crockery Is Seen Over Church; Davis Blames Russia

Well, here it is again! That terse, perhaps derisive, comment on the city police blotter today was a story in itself, the culmination of the inevitable.

With 43 states and Australia involved in the "flying saucers" craze, Kingstonians are doing their share to keep alive the fact or fiction of 1947's greatest atmospheric and astronomical mystery.

Two of Kingston's substantial citizens, Frank Stopski, of 427 Delaware avenue, and Sgt. John Volynski, of 456 Delaware avenue, called police headquarters at 2:30 o'clock this morning and excitedly told the desk sergeant they had seen two shining examples of that celestial crockery known as "flying discs" or "flying saucers."

The discovery by Stopski and Volynski was of unusual significance. Not only did it firmly entrench Kingston in the "flying disc" parade but certified the excellent state of eyesight of the two men.

Despite the steady drizzle and darkness, Volynski and Stopski said the "discs" were plainly visible in the sky above the railroad crossing on Delaware avenue, just above the Immaculate Conception Church.

Meanwhile Army Air Forces officials in New York city completely blasted the theory of the "flying saucers" with a report that they were nothing more than battered Army weather balloons that have been reported ranging over a greater part of the nation.

The remnants of these balloons are of flimsy construction, apparently made of some sort of tinfoil and as a result reflect brightly in sunlight. Army officials have refused to get excited about the newest national fad.

Davis Calls Freeman

The report to end all reports on the "flying discs" came out of Kingston this morning, when Milard Davis, former assemblyman, phoned the city desk that he had seen no less than eight of the "saucers" yesterday afternoon.

Mr. Davis said he positively identified the initials J. S. on three of the "discs" and U. N. on three others. The Kerhonkson farmer declared he was convinced the discs represented the evil machinations of one Joseph Stalin.

"The initials J. S. and U. N. were unmistakable," Mr. Davis said, adding that "I know that they came straight from Russia."

Pressed for an explanation of his emphatic belief that the discs had come from Russia, Mr. Davis replied tersely:

"I know they did."

Mr. Davis said he spotted the eight flying discs that were shaped "more like a saucer than a saucer."

"The objects were flying in perfect military formation," Mr. Davis said. Continued on Page Thirteen

Paltz Voters Kill Board Boost Plan

Vote Is 392-165 Against Increasing Education Group to 9 in Move for Principal

Two Are Reelected Two Trustees Receive Added Terms; Voting Totaled 633

Voters of the New Paltz Central School District Tuesday evening by a vote of 392 to 165 defeated the proposal of the Citizens' Education Group of New Paltz to increase the number of trustees from five to nine in an effort of the group to gain control of the Board of Education and bring about the reinstatement of former Principal Ray Cunningham to whom the Board refused to offer a new contract for the ensuing year.

Not only did the meeting defeat the move to increase the number of trustees but reelected the two trustees whose terms expired.

The meeting held at Cental High School on Manheim Boulevard in New Paltz was one of the largest attended sessions in the history of the village with 333 votes being cast when the trustee contest came up. In addition to the legal voters in attendance there were many spectators who came to witness the result of the controversy which has been waged in the village since last March when following the refusal of the Board to offer Mr. Cunningham a contract for the 1947-48 school year, which would have constituted tenure of office, the matter has been widely debated and much discussed. On March 22 Frank Bugar of Ithaca was appointed principal of the New Paltz Central School to succeed Mr. Cunningham. Mr. Bugar's contract became effective July 1.

800 in Attendance

The high school was filled to capacity and it was estimated that at least 800 people were in attendance when the session opened. All 737 seats in the auditorium were filled and there were approximately 100 seats on the stage.

When the vote for chairman of the meeting a total of 667 votes were cast. Edgar Beebe, justice of the peace and a teacher in the State Teachers' College, received 418 votes and was elected over the candidate of the Citizens' group, Albert H. Luther, who received 245. There were four void ballots.

Howard Grimm, clerk of the board, served in that capacity. Following the selection of a chairman the only debate of the evening arose when the Citizens' group challenged the procedure and sought to have the next order of business the proposition of increasing the number of trustees from its present five to nine. It was suggested that before the voting for trustees was taken up the

(Continued on Page Thirteen)

Bill Is Okayed Tax Cuts Go to Senate

Washington, July 9 (AP)—The Senate Finance Committee approved the \$4,000,000,000 income tax cut bill today in 43 minutes. The vote was 10 to 3, with only Democratic Senators Barkley (Ky.), Lucas (Ill.) and Connally (Tex.) opposing the reduction which would take effect next January 1.

Chairman Millikin (R-Colo.) whipped the bill through his committee without the formality of hearings.

The Republican schedule for Senate action gives the tax measure right-of-way for consideration as soon as the Army-Navy unification bill is disposed of—possibly tomorrow.

No Big Increase In Students Seen At High School

Laidlaw Estimates 1,600 Will Enroll, Same as Last Fall, Once 2,000

Unless there is an unanticipated influx of pupils from the rural sections, the September enrollment at Kingston High School should approximate last year's figure—approximately 1,600—Superintendent of Schools Arthur J. Laidlaw has announced.

In estimating that registration this fall will be comparable with last year's, Superintendent Laidlaw made the prediction that next June's graduation class will run into the 400 figure again, the same as the year before.

Regarding registration at other city schools, Superintendent Laidlaw said that present indications point to a slight decrease in eighth year pupils at the Myron J. Michael School, and added that he anticipates no great increase at the various other public schools.

Although Kingston High School was designed to accommodate fewer students than the 1,600 enrollment of the past year, conditions apparently had no ill effect scholastically, with the local institution graduating a larger class than any neighboring cities along the Hudson valley.

Once Had More Than 2,000

It was pointed out that there was a time when the high school enrollment exceeded 2,000, offering courses in special temporary classrooms set up even in the corridors.

Extreme overcrowding at the high school was relieved by the M. J. M. School, which takes care of first year students, along with eighth year pupils from the city's grade schools.

Superintendent Laidlaw expects many G. I.'s to resume their high school education, the same as last year, and their presence will tend to swell the enrollment to some extent.

Since the introduction of the guidance department, fewer high school students quit their studies to take positions and this factor goes to keep up the enrollment at the school.

C. J. Burger Gets Six Months For Molesting Girls in Park

Pearl Street Man Said He Was Overcome by Desire to Grab One of Group

Clement J. Burger, 22, of 23 Pearl street, was sentenced to 180 days in the Ulster county jail, when arraigned before City Judge Matthew Cahill yesterday in city court on a third degree assault charge.

Burger was arrested by Detective Clarence Brophy on a complaint signed by Florence Haines, a colored girl of 259 East Strand.

Burger was sentenced after pleading guilty to charges of molesting a group of girls at Hasbrouck Park on Sunday. He was charged specifically with grabbing the arm and attempting to choke Dolores Smith, also colored, of 229 East Strand, as she was walking with a group of girls along a path in Hasbrouck Park.

The defendant said he came upon the girls who were walking single file along the path and was overcome with a desire to grab one of them. He singled out the last girl in the file, Dolores Smith. He grabbed her by the left arm and then put his right hand on her throat. He became alarmed when the girl started screaming and ran away.

Burger was picked up later at his home by Detective Brophy and brought to police headquarters where he was identified by Florence Haines, who signed the complaint.

Newsboy Held

Thirteen-year-old Ralph A. Duchacek Jr. rides a police car to Framingham, Mass., District Court where he pleaded innocent to the "laundry bag" strangling of a woman customer on his newspaper route. The Ashland, Mass., youth was ordered held without bail for hearing. (NEA Telephoto)

Taxpayer Is Heard, Asks For Caution

Mrs. Nellie Osterhoudt Says Burden in Lean Years Would Be Hard for Public

Excess Is Cited Budget, Council Says, Goes Beyond Values in Assessments

For the second time within a week, the highly controversial city school budget of \$1,081,522.24 is back in the official lap of the Board of Education, with a strong recommendation by the Common Council that the Board call a public hearing before Tuesday to determine public sentiment on the proposal which would hike the school tax rate to the unprecedented figure of \$22.44.

Members of the council voted unanimously last night at a recessed meeting to request the Board of Education to call a public hearing in order to give the taxpayers an opportunity to have their say on the proposition.

The meeting had been recessed since July 1, when the council for the first time refused to sanction the new budget.

Another meeting is scheduled for next Tuesday, July 15, at which time final council action will be taken. The Board of Education meanwhile had sustained its original budget over the objections of the Council.

Calls Rise Alarming

Last night's hearing attracted about 20 taxpayers but only one, Mrs. Nellie Osterhoudt, of 133 St. James street, commented on the school budget. Mrs. Osterhoudt said that in her opinion the school tax rate was rising at an alarming rate and warned that the top must be reached soon. She declared that the inevitable "lean years" would impose a tremendous burden on the taxpayers.

Virtually every member of the Council spoke in favor of the proposed public hearing. They said the taxpayers should not be bypassed on such an important issue, although they privately admitted that under the statutes, the Board of Education can by a two thirds vote sustain the proposed budget over the objection of the Common Council.

In that event, the Common Council would serve merely as the authorizing body for the levying of the new tax rate by the city clerk.

The proposed budget set a school tax rate of \$4.80 over that of a year ago when the councilmen also left final action on its adoption with the Board of Education.

To Be Raised by Levy

The Finance, Ways and Means Committee in its report last week pointed out that of the total budget, \$542,857.85 is to be raised by tax levies and that the total assessed valuation liable to school tax levy is \$24,191,522.

The committee held further that the proposed budget "therefore exceeds one per centum of the assessed valuation by \$300,942.62 and it recommended that it be returned to the Board of Education which has the power of final action.

The Board of Education responded by calling a special meeting and quickly sustained the 1947-48 budget by a unanimous vote.

Barth Heads Espous Legion, Is Croix de Guerre Winner

Chester W. Barth of Port Ewen, Croix de Guerre winner, and charter member of Town of Espous Post, 1298, American Legion, was elected commander at the regular monthly meeting in the town auditorium at Port Ewen, Tuesday night.

Installation of Commander Barth and his slate of officers will be held at the August meeting, with Commander Robert J. Henry, retiring, as officiating officer.

The third commander of Town of Espous Post, since its formation, has an imposing military record to go with his honor of being a charter Legionnaire and an active worker in the organization.

He was a non-commissioned officer in the 156th Field Artillery, New York National Guard, when it was called for federal service, and later became attached to the 78th "Lightning" Division, the first American outfit to cross the Remagen Bridge and hold the position until reinforcements arrived.

As a master sergeant he was awarded the Bronze Star for meritorious service in action and later was honored with the Croix de Guerre by the French government.

Commander Elect Barth is a son of Mr. and Mrs. Raymond Barth of 15 Arlington Place, and

CHESTER W. BARTH

Art Student Is Held

New York, July 9 (AP)—A 32-year-old Greenwich Village art student, identified by police as Miss Ann Johnson, appeared in police lineup today on a charge of homicide in connection with the death of her five-months-old son, whose body was washed ashore from Long Island Sound at Sand's Point, N. Y. Inspector Joseph Donovan said the woman made a statement to the district attorney's office in which she allegedly declared she had drowned the baby in the bath tub, had taken the body in a suitcase to Port Washington Saturday and then had dropped the body into the water from a hired rowboat. Laundry marks on a blanket found with the body led to Miss Johnson, police said. Arresting officers found her in a one-room apartment, clad in black and sitting near a bassinet.

Flashes of Life Sketched in Brief

Lost Plate
Salt Lake City, July 9 (AP)—At least two baseball fans at the Salt Lake City Bees park feel they rooted too heartily, but one of them is happy.
He has the dental upper plate found in the grandstand.
Claude Engborg, Bees secretary, said that a man came in to try on the errant dentures and found they matched his lower plate. Later another fan reported his upper set was missing, but only one set had been found.

Holdup
Santa Monica, Calif., July 9 (AP)—This is a holdup! said the gruff voice outside the movie tickets window.
"Are you kidding?" laughed Wanda June Phillips, the cashier in front of the gun's muzzle. "Move on, you're holding up the line."
The would-be bandit fled, but the next man in line pursued, colored him and chided the police.

No Joke
Salt Lake City, July 9 (AP)—Merle Stewart, remembering army practical jokes such as left-handed monkey wrenches and blink stretchers, was skeptical when he

came on a War Assets Administration surplus sale list showing "trunk, elephant, one lot."
He investigated, believing he would find it all in fun, but learned that an "elephant trunk" is a flexible nozzle used on cement mixers.
Model Farm Vanishes
Columbus, O., July 9 (AP)—Daniel P. Ryan, 78 year old retired railroad boilermaker, reported to police thieves had stolen his log cabin, several farm buildings and furniture.
Before a police desk sergeant got a chance to ask Ryan to repeat the losses, Ryan explained somebody had stolen a complete model farm from his garage. He added he spent two years constructing the model farm, which he valued at \$300, without use of a single nail.

Deaths Last Night
William Gibbons Bramham
Durham, N. C.—William Gibbons Bramham, 72, president of the National Association of Professional Baseball Leagues for 14 years until his retirement last December. He was born in Hopkinsville, Ky.

Dr. John Eric Hill
New York—Dr. John Eric Hill, 39, associate curator of the Department of Mammals at the American Museum of Natural History, and an internationally known mammalogist.

U. S. May Use Its Bomb Surplus in Restoring Reich

**Recovery of Vital Things
in Incendiaries, Others
Is Carried on by
Americans**

By ETON C. FAY

Wiesbaden, Germany, July 9 (AP)—The United States Air Force in Europe, with more than 80,000 tons of surplus bombs on hand, has an idea that the munitions made to destroy the German economy can be used to help restore it.
Maj. Gen. Iwail H. Edwards, U.S.A.F. commander, said that methods by which fuel, lubricants and other material are recovered from the "napalm" incendiary bombs already are being used.

Moreover, the general told reporters, it is believed that nitrates, a fertilizer material critically needed for depleted German farm-lands, can be recovered from high explosive bombs. German explosives, said Edwards, are unusable for this purpose because they used a high percentage of nitrate substitutes.

The huge quantities of bombs piled up in the American zone of occupation are only a part of the administrative and surplus problems inherited by Gen. Edwards.
War-time airplanes, in varying conditions of usefulness or mere piles of junk, still crowd dozens of the abandoned airfields of the zone, but in the two years since V-E Day the original surplus of 17,000 airplanes of all types has been greatly diminished. These planes—bombers, fighters, transports and gliders—cost \$2,285,000, 000 and were in Germany, England, France and Belgium when hostilities ceased.

2,378 Planes Remain
The most recent count, on May 1, showed 2,378 airplanes left, a figure which includes 482 B-17 Flying Fortresses, 27 of the familiar old C-47 twin engine transports, 1,155 P-47 fighters, and 2,489 gliders.

There is little peacetime use for the combat airplanes. Even though many of them are in excellent flying condition, the cost of operation would be prohibitive for commercial users. After the useable instruments and other equipment

have been stripped from the combat aircraft, they are scrapped.
U.S.A.F. presently has 111 Flying Fortresses and 205 C-47 transports scheduled for scrapping because they are obsolete, no longer required either for military or civilian use or because they are too worn or damaged to be flyable.

The C-47's have a ready market in the expanding commercial airlines in Europe or for return and sale in the United States. This command has disposed of 221 of these transports, the actual sales being made through the government's foreign liquidation office in Paris. There remain about 63 more C-47's in condition for sale and use by private lines. European buyers, like those in the United States, now are encountering some difficulty in locating replacement parts for the C-47's.

Gen. Edwards, who saved the army from West Point in World War I, was chief of staff for Gen. Jacob L. Devers in the European continent campaign of the recent war and also served as deputy commander for administration with the A.A.F. in the Mediterranean Theatre.

Plot Caught in Time

Paris, July 9 (AP)—Had it not been discovered in time, the "Black Magic" plot to overthrow the French government would have reached its climax today with four columns of troops marching on Paris, says the Interior Ministry. The Interior Ministry said that most of those arrested in connection with the conspiracy, which was centered in Brittany, had confessed and had revealed the identity of accomplices. The exact number of those arrested was not disclosed.

Push Button Plan To Replace Wires Sending Telegrams

Philadelphia, July 9 (AP)—"Push-button telegraphy" previewing a new era in Western Union delivery, was placed in operation today between Philadelphia and New York.

The Western Union Telegraph Co. said the \$2,000,000 push-button system, coupled with construction of a new radio beam network, ultimately will replace telegraph pole lines.
The mechanical marvel, tripling the capacity of present wire facilities, permits switching clerks to relay messages to any of 270 destinations by merely pushing a button.

Western Union officials said other circuits—only one, to New York, is now in operation—will be added by September. The complex maze of wires, button panels and lights next will be installed at Cincinnati. Then push-button sets will be constructed in Boston, Kansas City, Syracuse, St. Louis, Atlanta and Oakland, Calif.

Philadelphia is the clearing house for all messages to and from Pennsylvania, New Jersey, Delaware and the counties of Maryland and Virginia on the Del-Mar-Va peninsula. Messages arriving here are sorted by routing clerks and carried by conveyor belts to relay operators who retransmit the message on teletypes—electric telegraph typewriters.

A radio beam system has been operated experimentally between Philadelphia and New York since February, 1945, the company said. Commercial use will start shortly over a system connecting Phila-

delphia, Pittsburgh, New York and Washington.
The company said radio beam transmission with radio towers 30 to 50 miles apart to relay super high-frequency waves, is not affected by the weather hazards that frequently cut service over telegraph poles and lines.

Ford Announces Price Revisions on Company's Trucks

Detroit, July 9 (AP)—Price revisions ranging from a reduction of \$17 to increases of \$98 covering all Ford light and heavy duty trucks were announced today by J. R. Davis, Ford Motor Company vice-president and sales and advertising director.
Davis said the price differential now separating V-8 and six-cylinder truck models had been reduced from \$53 to \$30.

"A more equitable pricing structure in keeping with rising manufacturing and materials costs" was cited by Davis as the reason for the adjustments.
He added that list prices of Lincoln, Mercury and Ford passenger cars remained unchanged.

Held for Wife's Murder

Plainfield, N. J., July 9 (AP)—Prosecutor Edward Cohn said that New Jersey's three-month-old trunk murder mystery was solved last night when mild-mannered

Philip Schrell, 59, admitted he strangled his wife because of her nagging and continual doubts. Schrell, who was booked this morning on a murder charge, was taken into custody yesterday when he returned from his work as a photo-engraver in New York city. Cohn said Schrell viewed the body that was found April 19 in a trunk on a road near Keyport, N. J., and identified it as that of his wife, Anne, 50. This confirmed the identification made a short time earlier by police on the basis of dental information, the prosecutor said.

Don't let itchy, scaly DANDRUFF or LOSS OF HAIR due to externally caused SCALP AFFECTIONS get you down! Treat it quickly and pleasantly with "SCALP-MONITOR" that remarkable cream used like a hair dressing. It's wonderful after a "permament." Available at United, Cut Rate, Franklin and Central Pharmacies.

State Has Record Car Registrations

First 4 Months Indicate 2,562,189 in Use; \$50,527,962 Taken

Albany, N. Y., July 9 (AP)—New York's automobile registrations reached a record 2,562,189 in the first four months of 1947, the Bureau of Motor Vehicles reported today.

Motor vehicle fees for the same period, \$50,527,962, topped the previous high of \$46,751,821, collected in the first four months of 1941. The previous registration mark 2,539,022, was set in the same period.

The 1946 four-months figures were 2,341,857 registrations and \$45,800,511 in fees. Passenger car registrations jumped from 1,902,157 in the first four months last year to 2,072,564 in 1947. The increase in commercial vehicle registration was from 310,472 to 346,253.

The Bureau noted a decline in only two of 11 registration classifications—farm vehicles and ambulances.

Girl Scout Benefit Planned; Maverick To Give 'Our Town'

Woodstock, July 9 (AP)—Mrs. Clara Chichester, Woodstock, has been named chairman of a group of Woodstock women who will sponsor a benefit performance for the three Woodstock Girl Scout Troops, to be held at the Maverick Theatre, Wednesday evening, July 23. The play chosen for this benefit is 'Our Town,' by Thornton Wilder.

Our Town, Pulitzer Prize play, was made into a film and received both public and industry acclaim as one of the best plays of our times. Wilder, who already had achieved considerable prominence with his Bridge of San Luis Rey, moved into the top ranks of native American dramatists.

Mrs. Albert Parker was hostess on Monday afternoon when several ladies met to discuss plans for the Girl Scout benefit performance, and form a committee to promote this event. The committee includes Mrs. Helen Mower, Mrs. Warren Huttly, Miss Elsie Goddard, Mrs. Joseph Raymond, Mrs. Walter McElroy, Mrs. E. Dullmyer, Mrs. J. Van Ryn, Mrs. Frieda Milne and Mrs. Adele Cosgrove. It is understood that this committee will be enlarged to include all the ladies of the township who wish to share in making the affair a success.

It is hoped by the committee that the public realizing the financial needs of the newly organized Girl Scouts will be generous in their support of this theatre benefit. A special program will be printed for the benefit performance of Our Town and all proceeds from the advertising will be given to the Woodstock Girl Scout Troop Committees.

A booth will be erected between Blazy's store and the Woodstock Post Office where tickets for the benefit performance will be on sale.

Auxiliary to Hold Bazaar, Supper At Legion Hall

Woodstock, July 9—The Ladies' Auxiliary of the American Legion Woodstock Post 1026 will hold a bazaar and cafeteria supper at the Legion Hall, Woodstock, on Saturday evening, July 19, beginning at 5:30 o'clock.

While all details for the affair have not been completed, the committee in charge has been announced, and includes Mrs. John

Woodstock News

By Peg Hard

Peacock, chairman; Mrs. Everett Cashdollar, Mrs. William Klippel, Mrs. Harry Kutzschbach, Mrs. Henry Grazier, Mrs. Aaron Hasbrouck, Miss Florence Peper, and Mrs. Fennel Franckling.

A meeting of the bazaar committee was held Tuesday afternoon at the home of Mrs. William Klippel to plan for the supper and special features to be used. Popular handmade articles will be plentiful, the committee reports.

Derwent, Linenthal Score Success in Pagnol's Comedy

Woodstock, July 9—An enthusiastic audience delighted in the strong, contrasting characterizations so ably portrayed by the cast of Topaze, Marcel Pagnol's comedy, which opened last night at the Woodstock Playhouse.

Michael Linenthal's convincing role of the French school master, who begins life as a virtuous citizen trying to instill honesty and right living in his unresponsive pupils, produced pity one moment and laughter the next as the audience witnessed his gradual transformation into the role of a very successful racketeer.

M. Castel Benac, a crooked politician in the play, was perfectly depicted by Clarence Derwent who originated the role on Broadway when the play was first produced. The Playhouse audience showed a fine appreciation for Mr. Derwent's forceful performance.

Ruth Ford was excellent as the female member of the conspiratorial trio.

Six boys gave what seemed to be a completely natural depiction of an unruly classroom sextet. They seemed to be absolutely at home in their roles and the one who threw a wad of paper at the schoolmaster did it with such unerring skill that one might suspect he had been practicing for years.

Don McHenry as Mucche, Michael Sivy as Roger de Berville, Frances Bavier as Baroness Pitart-Vergnolles, handled their parts faultlessly.

The bit roles were capably done by Cort Steen, Lucia Collarte, Bea Goldberg, Louis Frederick, Norma Lawson and Roland Hague.

March McLeod as Ernestine Mucche, Topaze's first love, gave a brief but interesting demonstration of the fact that a woman can always change her mind. The settings were beautifully done by E. A. Heschoing. The atmosphere of France was captured even to simulated marble trim in the magnificent office of M. Topaze, the successful though unscrupulous business man.—P. H.

Kitten Recognizes Lapo As Voice of Authority

Woodstock, July 9—Firemen, whether professional or volunteer, have long been recognized as persons who can do almost anything. This attribute was demonstrated clearly Monday evening when Woodstock's fire chief, Reginald Lapo, rescued a kitten, Blueberry, from a high tree on the Reginald Wilson property.

Fire Chief Lapo was not even forced to resort to the ladder treatment. After George and Peg Hard failed to move the kitten with their brand of coaxing Reggie appeared and showed his delegate's card to the Ulster County Volunteers' Convention in Fort Ewen, July 26. The cat came down.

Record Concerts

Woodstock, July 9—Record concerts will be given every Monday evening in the garden adjoining the Catskill Book and Record Shop, Woodstock. The public is invited to attend these weekly concerts and to participate in the selection of the records to be played. Each week, two records will be chosen by the shop and the audience will be asked to make other selections for the two-hour program. There will be no admission charge.

Calls for Showdown

Washington, July 9 (AP)—Senator Gurney (R-S.D.) called for a showdown in the Senate today on a proposal to unify the armed forces under a new secretary of national security. Although Gurney predicted a vote would be reached on expected passage of the bill, Democratic strategists said they doubted that all of the debate could be cleared away before tomorrow.

G.O.P. Would Have
Bill Completed
For Succession

Washington, July 9 (AP)—G.O.P. leaders hope to complete congressional action by nightfall on a bill designating the speaker of House, now a Republican, as chief executive in the event President Truman should fail to serve out his present term.

House Republican Leader Hallett of Indiana announced plans to call up the Senate-passed bill creating a new line of succession but in effect stopping the line with the speaker.

Since Mr. Truman himself requested the legislation and a Democratic-controlled House passed it last year, Hallett expected no difficulty readying it for the President's signature without delay.

The present speaker of the House is Joseph W. Martin, Jr., 63, a bachelor from Massachusetts.

The bill that would make Martin "crown prince" provides that whenever there is a vacancy in the office of the President and the Vice-President, from any cause, the speaker of the House shall become President and finish out the term.

Should the speaker fail to qualify—he would have to be 35 years of age and native born—the president of the Senate would move into the White House.

But in the event the speaker qualified and then died, or for some other reason was unable to serve, his successor as speaker would become President. Thus so long as there was a speaker, he would always rank behind the Vice-President and ahead of all others.

Cabinet officers, who now rank next to the Vice-President in the line of succession, would be put behind the senate president, starting with the Secretary of State.

Barth Heads

Continued from Page One

husband of the former Miss Pauline Doyle of Port Ewen.

Other officers elected: Vice commanders—Milton C. Carpenter, Donald F. Decker and Harold E. Jones.

Adjutant—P. J. Beichert, re-elected.

Treasurer—Edward B. McBroome.

Historian—Theodore Strasser.

Chaplain—The Rev. Fred W. Stine.

Sergeant-at-arms—Everett Soper, Jr.

Members of the executive committee—Robert J. Henry, re-elected; commander, and E. M. Cameron, a past vice commander.

Delegates to the county committee—C. W. Barth, Milton C. Carpenter and Edwin T. Doyle.

Alternates—Joseph Stadt, Schuyler Rockefeller and Earle Terwilliger.

The membership was announced as 226 for 1947, better than 10 per cent of the quota, 224 members.

The chairman of the fireworks committee made a tentative report that the affair was one of the most successful events ever staged by the Post.

A report on the "Surprise Party" activity of the Post was made by the chairman and treasurer of the "parties," Chester W. Barth and John A. Henry. It developed these "parties" are providing a substantial amount towards increasing the building fund of the Post and will be continued every Saturday night.

Man Is Booked
For Suspicion in
Mondragon Killing

Los Angeles, July 9 (AP)—Antonio Mondragon, 26-year-old sheet metal worker, was booked on suspicion of murder at University Division jail early today in the slaying of his estranged wife, youthful Rosenda Mondragon.

The wide and battered body of 20-year-old Mrs. Mondragon, who had been strangled with a silk stocking, was found yesterday in a gutter a few blocks from the city hall.

Mondragon was booked after several hours of questioning by Det. Lieut. Robert Lohman, Det. Sgt. Harry Fremont and other officers of the Homicide Division.

Mrs. Mondragon was the eighth woman victim in the last six months in a series of brutal slayings in the Los Angeles area. The first was the mutilation slaying January 15 of Elizabeth Short.

This known as the "Black Dahlia" case, has not been solved. Detectives Lohman and Fremont said the Mondragons had been estranged for two months and that divorce papers were served on Mondragon at about 1 a. m. yesterday.

The officers said Mondragon told them he met his wife shortly after that and that the last he saw of her was when she left in an automobile near the place where he rooms.

Raid on Communists
Athens, July 9 (AP)—Government officials announced today the arrest of more than 2,000 persons in the Athens area in a series of lightning dawn raids which they said were carried out to frustrate a Communist uprising. The officials said that all those arrested would be given hearings and those not implicated in the alleged plot would be released while the others probably would be held. Reports from Piraeus—the port of Athens—asserted, however, that scores already were being transported to vessels in the harbor apparently bound for exile. The arrests were carried out by security police on orders of the Council of Ministers and followed rumors—current for

Gaffken Advises

Continued from Page One

as a practical hint, that stocks be kept for a few years if the price on them keeps going higher, and then that they be sold at greater profit. Eventually, if the value drops, they can again be bought at a much lower cost and held until they attain additional value.

The brokerage business is a funny situation, he intimated. You are always selling something you haven't got; meaning that the broker may borrow to buy someone's shares at a certain price, and then sell someone else the same stock at an advanced price without ever actually gaining possession of same.

Good Indication
An interesting sidelight in the stock market now, he said, is the great percentage of short interest increases and is a good indication of higher percentage of accumulative increases later.

The stock market received a bad name in the twenties, Gaffken said, but is now legitimate and enjoys a good reputation since the government stepped in with restricting regulations. Margin percentages are now under Federal control.

Asked whether or not the economic condition of the country is reflected by the stock market, Gaffken explained that this may be so in a broad sense, as was witnessed in the late twenties when the market bottom fell out and the depression hit the country.

Keep the baby in a high chair as far as possible from the stove and sink to avoid scalds and burns.

What they buy must give good and satisfactory service. Every thing you find at Penney's is tested to make sure it will give you every dime's worth of value for

Where's That Place?
(J. P. Marquand, in Cosmopolitan)
It always seems strange to me that I have five children. Seems strange to others too. At dinner one night I happened to comment to the woman next to me that one of my sons was a soldier in Europe while I had another son in diapers. She was surprised. She said: "Where, exactly, is Diapers?"

Bejeweled lady in cocktail lounge: "He used to call me dear; now he calls me expensive."
—Reader's Digest.

Tolerance
The Hebrews read from east to west.
Chinese from north to south; They're sure that their way is the best—
Who am I to shoot off my mouth?
Herbert Bechford.

Shopper: "Why, Mr. Smith, you're back again as floor-walker, I see. I thought you were an insurance man."
Smith: "You made the same mistake I did."

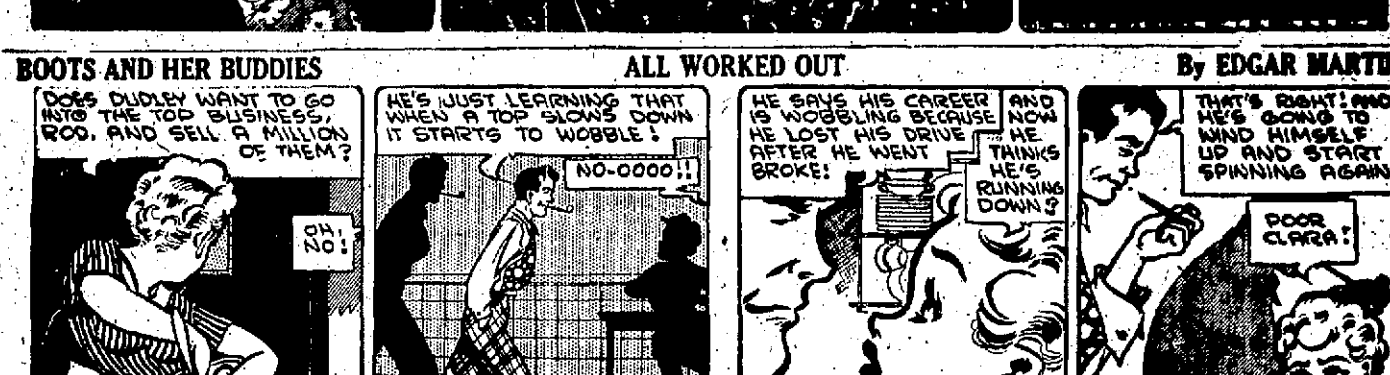

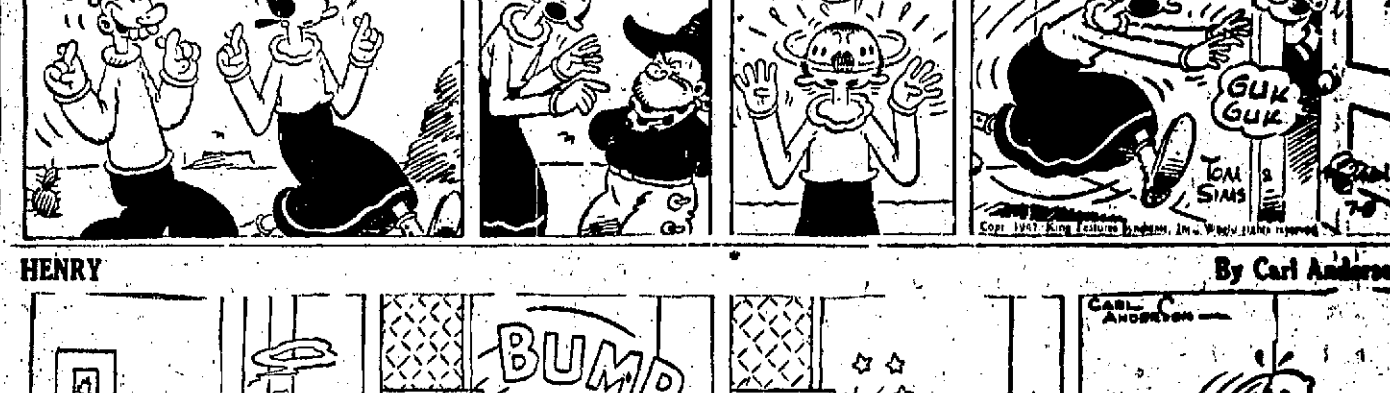

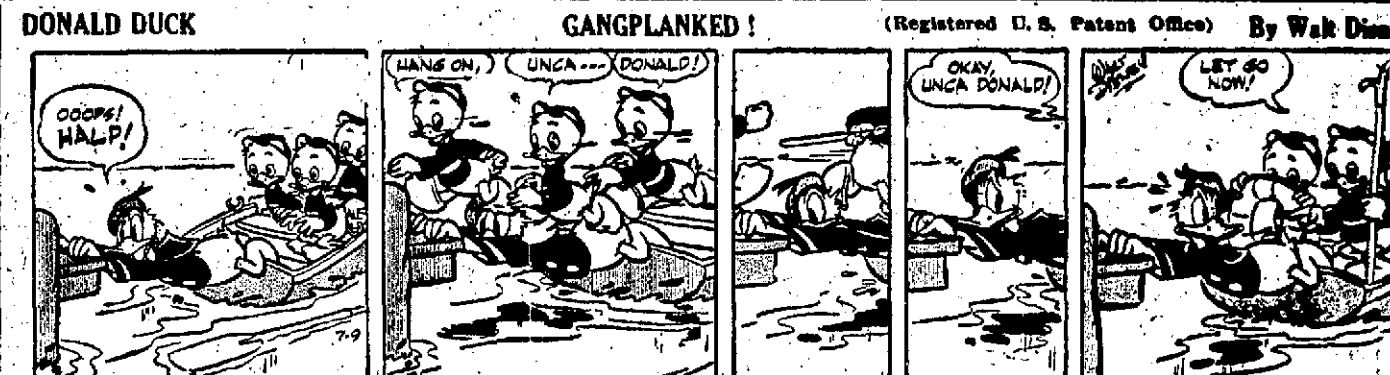

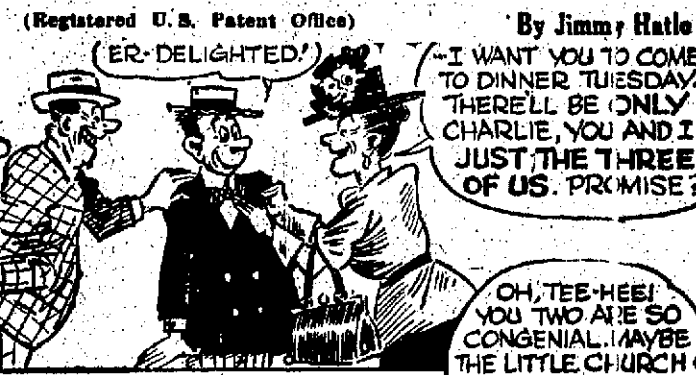

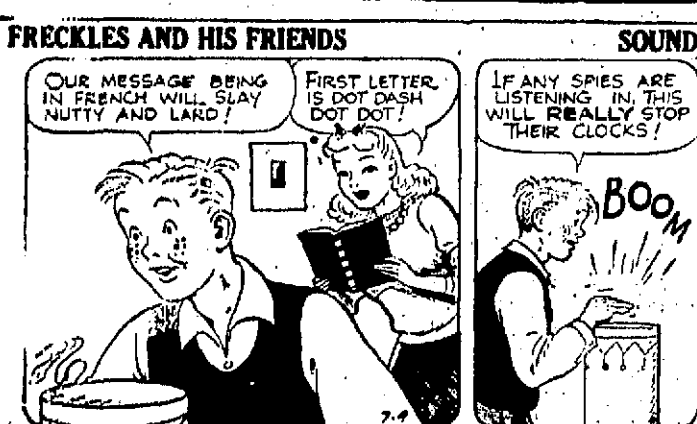

Wife: That's funny looking hair on your coat.
Husband: Don't go getting the wrong impression. That's a horse hair.
Wife: I know it is, that's why it's funny.

School Superintendent (cross-questioning the terrified class)—
"And now I want you boys to tell me who wrote Hamlet!"
Frightened Boy: "P-p-please sir, it wasn't me."
That same evening the superintendent was talking to his host, the squire of the village. The superintendent said:
"Most amusing thing happened today. I was questioning the class over at the school, and I asked a boy who wrote Hamlet. He answered tearfully, 'P-p-please, sir, it wasn't me.'"
After loud and prolonged laughter, the squire said:
"That's pretty good, and I suppose the little rascal had done it all the time!"

Man: I'm continually saying to woman, Why will you not be more wise? Woman is continually saying to man, Why will you not be more loving? It is not in their will to be wise or to be loving;

"Yes, I had to buy a whole new wardrobe because longer dresses are back in style—but look at what I'll save when shorter skirts are being worn again and I can cut them off!"

Manfred Weiss Steel Company Is Producing Full Blast

(AP Correspondent Daniel De Luce, back in the area where he won a Pulitzer prize, is writing about the "little fellows" of countries in the Soviet orbit of influence, and of the industrial and political movements which affect their lives.)

By DANIEL DE LUCE

Csepel Island, Hungary (AP)—The Manfred Weiss Steel Company was the Krupp's of Hungary until American long-range bombers knocked it out four times in 1944. Today it is working almost full blast in a Soviet-approved program for converting dominantly agricultural Hungary into a super-modern industrial state.

Not a scrap of Weiss equipment has been sent off to Russia as war booty. The nation's largest steel works continue to be an exclusively Hungarian property under Hungarian management.

Here, in hot, sprawling mills where artillery, panzers and bomber engines for Hitler once rolled off the assembly lines, output has increased 30 per cent in five months and is now at the rate of \$2,635,000 worth of metal products a month.

Eighteen thousand poorly-paid workers are divided almost equally in membership between the Communist and Social Democratic parties. But they are united in supporting the management's attempt to increase production still further under the national three-year plan.

Painted on the highest chimney on Csepel Island, a Communist slogan proclaims: "3-year plan brings better life to workers."

The Weiss Company was started in the 19th century by a Jewish junk dealer. The founder's family, persecuted by Nazis during the war, has no current voice in the

"UNBLOCK" your DIGESTIVE TRACT

And Stop Doubling Your Stomach With Soda and Alkalizers

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking soda and other alkalizers if the true cause of your trouble is constipation. In this case, your real trouble is not in the stomach at all. But in the intestinal tract where 80% of your food is digested. And when the lower part gets blocked food may fail to digest properly.

Get real relief for real relief to something to "unblock" your lower intestinal tract. Something to clean it out effectively—help Nature get back on her feet. Get Carter's Pills right now. Take as directed. They gently and effectively "unblock" your digestive tract. They permit all 5 of Nature's own digestive juices to mix better with your food. You get genuine relief from indigestion so you can feel really good again. Buy Carter's Pills today. "Unblock" your intestinal tract for real relief from indigestion.

management. The letter is furnished by a state body. Since the war the Weiss Company has been operating at bookkeeping loss and drawing large state subsidies. This government money has actually gone into reconstruction.

Ten thousand tons of steel are processed monthly. Aluminum copper and brass are produced. The steel lacy of Budapest's new bridges over the Danube came from here. A considerable but of socially unestimated share of output has gone to the Soviet Union for reparations.

Weiss is the keystone in Hungary's ambitious scheme to win a major share of Germany's former markets in southeastern Europe. Chief Manager Odon Magashazy, who says he would like to visit the United States to study American technology, is paid \$212 a month. His workers receive \$34 to \$59 a month depending on skill.

16 Per Cent Boost

But even this wage represents a 16 per cent boost over what they earned at the start of 1947, as a reward for increasing production 30 per cent with no increase in the total labor force.

Istvan Welland, who helps at a stamping machine for \$8.52 for a 48-hour week, said he and his wife and three children live in a one-room flat with kitchen but no conveniences such as electric lights. He usually skips breakfast, he said, so the children have more to eat.

As a Communist representative on the workers' committee, which advises the management on matters pertaining to both administration and production, 45-year-old Imre Batto's wage is \$14.05 a week, the same as he received as an active welder. But his work now is purely mental.

Considered typical of the post-war minor labor leader, Batto only joined the Communists two years ago and is far from rigid in his dialectic.

Asked if he believed Communist assertions recently that the United States had conspired to restore the Horthy government, he laughed. "That's just propaganda," he declared. "The United States wouldn't support a man who has made war against America."

As much as Manager Magashazy, Communist Batto appears to take pride in the fact that their company has virtually regained its 1938 production level and is only 20 per cent under the all-time high in 1943.

Both express emphatic belief in the national three-year plan which is supposed to give all Hungarians a better living standard by 1950 than they had before the war, and at the same time pay off most of the armistice debt owing to Russia.

Neither indicates any particular

affection for Russia and both are obviously thankful that the Soviet occupation army has not interfered at Csepel Island.

Sea Hawk, Koch Film, Returns to Broadway Theatre

The perennial popularity of The Sea Hawk movie made from Sabatini's novel of the same name, is proved by its return to the Broadway Theatre, this city.

The film stars Errol Flynn, was made into a screen play by Howard Koch of Hollywood, formerly of this city. It was the first cinematic script Mr. Koch did upon his arrival in the film capital several years ago and it has been one of the biggest box office attractions of all time.

His net in profits to the producers, incidentally, is a near-record. The picture is set against a backdrop of Elizabethan culture and marks the day when Britain was questing to wrest control of the sea from Spain. It is one of the most thrill-packed pictures ever released from Hollywood.

Divorce Is Approved

Los Angeles, July 9 (AP)—A California court has approved the Mexican divorce obtained by opera singer Miliza Korjus from Dr. Kuno Foelsch, German-born scientist. Dr. Foelsch sued her for divorce here last October on allegations of cruelty. She replied with a cross-complaint alleging that his only interest was to obtain part of her property and that she had already obtained a Mexican decree in 1944 with his consent.

Former Po'keepsie Woman Is Suicide

Mrs. Alice Vail, 52, Found Hanging; Coroner's Verdict Given

Ridgefield, Conn., July 9 (AP)—The body of Mrs. Alice Vail, 52, was found hanging yesterday from a handkerchief tied to a doornob in the bathroom of her home on the Danbury-Norwalk road here.

Medical Examiner Joseph Sloan Bell said it was a case of suicide. State Police Sgt. Henry Falas reported that Mrs. Vail's body was found by her husband, Elias, when he returned home for lunch from a kennel where he is employed as manager. Mrs. Vail had been despondent over a lengthy illness, the sergeant said.

The family moved here from Poughkeepsie, N. Y. three years ago. In addition to her husband, Mrs. Vail leaves a son, Thomas, and two daughters, Mrs. Baylor Capers, of Charlottesville, Va., and Mrs. Dickson Fairback, of Bethlehem, Pa.

Mead Begins Tour; Refuses N.L.R.B. Post

Syracuse, N. Y., July 9 (AP)—Former U. S. Senator James M. Mead started today on a tour of New York state after announcing that he "could not conscientiously accept" appointment to the National Labor Relations Board. Mead, who has been mentioned

in Washington reports as a possible candidate for one of two posts recently created on the N.L.R.B. under the Hartley-Taft labor law, attacked the measure as "absolutely unworkable."

Mead, Buffalo Democrat, who was defeated for governor of New

York last November, has maintained an office in Washington since he left the Senate January 1. He plans to return to the capital early in August.

Beauxite, the best source of aluminum, is abundant in all parts of the world.

CONFIDENCE

"When I see a merchant over-poll to his customers, begging them to taste a little brandy, and throwing half his goods on the counter, think I, that man has an ax to grind."

From essays of "Poor Richard the Scribbler", published 1818

All through the years of scarcities and shortages "26" Coffee has continued to be produced with the same high standard of quality. When choice green coffee was just not available or hard to buy—we never tried to sell more coffee than we could produce and still maintain our quality. There has been no change in this policy and won't be—while we are in the coffee business!

Bramham, Veteran Baseball Official, Succumbs; Was 72

W. G. BRAMHAM

Durham, N. C., July 9 (AP)—William Gibbons Bramham, who ruled minor league baseball for 14 years, died in a Durham hospital yesterday after a brief illness. He would have been 73 next Sunday.

Funeral services will be here tomorrow. Never a player but famous as the man to head four leagues at the same time, Bramham was elected to the presidency of all the minor leagues—the National Association—in December, 1932. He retired from this post last December at the minor leagues meeting in Los Angeles. He was succeeded by George M. Trautman, then general manager of the Detroit Tigers.

Vote Is Taken

Rome, July 9 (AP)—The constituent assembly's committee on treaties voted 13 to 10 today to recommend to the assembly the immediate ratification of the Italian peace treaty signed at Paris February 10.

Financial and Commercial

New York, July 9 (AP)—Individual stocks tried to keep the recovery going today although many market leaders stumbled over light selling. The lengthy upswing inspired a certain amount of liquidation for profits on the idea that a technical reaction was a possibility. Inflation psychology, sparked by the coal wage boost, brought bidding here and there but, on the other side of this question, was the thought that climbing prices of durable goods resulting from the fuel pact might accentuate consumer resistance. Hopes for the new tax bill dropped sentiment. The foreign picture still was a restraint.

Slowdowns were frequent after a fairly active opening and uneven tendencies prevailed near the fourth hour.

Amorita Petroleum was up about 2 points at a 1947 top but other oils wavered. Occasional gainers included U. S. Steel, Bethlehem, Chrysler, U. S. Rubber, United Aircraft, Santa Fe, Consolidated Edison, Philip Morris, J. C. Penney and Owens-Illinois.

On the outside at intervals were Superior Oil, Skelly Oil, Gulf Oil, Standard Oil (N. J.), N. Y. Central, Pennsylvania Railroad, Southern Pacific, American Telephone & Telegraph, General Motors, Sears Roebuck, International Harvester, Douglas Aircraft, Anaconda, American Smelting, Dow Chemical, Caterpillar Tractor and DuPont.

Bonds were narrow and commodities mixed.

Quotations by Morgan Davis & Co., members of the New York Stock Exchange, 60 Beaver street, New York city, bursel office, 48 Main street, R. B. Osterhout, manager.

Schools for Blind

Members enrolled in schools for the blind throughout the country conduct Junior Red Cross programs similar to those in other private, public and parochial schools. They take courses in home nursing, first aid, nutrition. They also produce such things as holiday favors and clothing for military camps and hospitals.

Sails for England

MRS. SAMUEL D. MASON

Mrs. Samuel D. Mason of 68 Wilson avenue, who with her daughter, Beverly, sails Friday morning on the Mauretania from New York for a four months stay with her parents, Mr. and Mrs. Philip Cohen, Manchester, England.

Palenville Manor Will Feature Show Arranged by Duffy

According to an announcement today by William J. Duffy, beauty contest and water show impresario, he'll run one of his "aquatic extravaganzas" at Palenville Manor's new swimming pool, Sunday at 3 p. m., featuring natators of renown, and an elaborate fashion show.

"It'll be just like the programs I ran in Florida during the winter," said the roly-poly promoter, who ran his mountain experience, fanned by a broad personality grin, into what he described as a "wad of cabbage" in the land of sunshine and millionaires.

Returning from the southland last spring, Duffy announced he contemplated "promoting" in the mountains, where he got his start in presenting water shows and beauty contests.

American Legion posts shared in the southern profits, and, according to Promoter Duffy, Palenville Post will be cut in for a portion of the proceeds Sunday.

Duffy said that prominent guests for the water show at Palenville Manor would be Sid Cannell of Radio City Music Hall, renowned Wally Spence of Olympic fame, Edith Bilety of Park Central Pool, and manager of the Women's Swimming Association of New York city.

The fashion show will follow the aquatic program, he advised, with 12 young mannikins modeling 48 garments from shops in Saugerties and Catskill. Mrs. Jean Castor is to be narrator, he added.

As the finale, Mr. Duffy will present the "bathing beauty" contest for maidens between the ages of 16 and 25, wearing only shoes and suits—all accessories contributory to pulchritude being barred.

After the program, a party for the winners will be held at Palenville Manor casino.

Certificates Filed

A certificate of incorporation has been issued Samuel Tinney, Inc., a corporation formed to do a general plumbing, water, gas, steam fitting, manufacturing and sale of plumbing supplies business. The capital stock is \$5,000, consisting of 100 shares of common stock of \$50 par value. The principal office and place of business of the corporation is at 22 Broadway, Kingston, and there may be not less than three or more than four directors. Directors to serve until the first annual election are Samuel Tinney, Clara Tinney and Emily R. Lounsbury of Port Ewen.

G.I. Insurance Pointer
Veterans need not convert the entire amount of their National Service Life Insurance to permanent plans at any one time, the Red Cross points out. Under V.A. regulations, conversions may be made in multiples of \$500 beginning with \$1,000.

Three Designated

Continued from Page One

ing counties to raise additional school funds without increasing taxes already levied on real property.

Following tonight's hearing the committee will report to the board of supervisors concerning the advisability of authorizing the new taxes which, if imposed, will enable the county to draw additional revenue for maintenance of schools.

If the board of supervisors votes to institute the taxes, which are a modification of the so-called "nuisance taxes" recently enacted by the state, retail sales of personal property, food and drink, sold in restaurants, bars and cafes, retail liquor sales and theater, opera and other amusement admission prices may be affected by the new law.

Taxes may also be imposed on the use of passenger motor vehicles, with a fixed annual rate in proportion to the weight of the vehicles. A license tax on vending machines is also considered.

Resolution Prepared

The board of directors of the Kingston Chamber of Commerce tonight authorized Harry Rigby, Jr., who will represent the Central Businessmen's Association at tonight's session, to prepare a resolution to be read this evening reflecting the stand of the Kingston Chamber of Commerce about the proposed tax imposition.

"Whereas, the collection of special taxes to pay for increased educational costs on a county basis would be uneconomical, and that their benefit would be largely nullified by the excessive cost of collection and administration; and

"Whereas, discrimination against local institutions would be set up by the diversion of trade into tax-free neighboring communities; and

"Whereas, unusual and inequitable burdens would be brought to bear upon the property owner—

who now largely pays for all government and civic improvements, and who must periodically shoulder aid to the unemployed by assessing present unusual educational costs against real estate; and

"Whereas, these additional expenses have been imposed upon local communities solely by State action;

Therefore, Be It Resolved, that the Kingston Chamber of Commerce suggest to the Special Committee of the Ulster County Board of Supervisors that the problem of providing a minimum of \$399,500 annually be met by additional state aid and if necessary that the legislature be convened in special session for the purpose of levying any additional taxes proved necessary."

In a letter from Mr. James Simpson, clerk of the board of supervisors, the Chamber of Commerce was requested to publicize tonight's meeting among all business representatives in the area. All members of the Chamber of Commerce are urged to attend. Representatives of school districts, business men, automobile owners, hotel and restaurant owners, and so forth, are advised to attend tonight's important hearing and to present their respective views on this proposed subject.

BOY SCOUT NEWS

Second Ward Paper Drive
Boy Scout Troop 8 of the First Presbyterian Church will conduct a paper drive Saturday in the Second Ward.

This troop is reorganizing during the summer months and any young boys interested in joining are asked to attend meetings at the church any Wednesday night at 7 o'clock. Harry Flowers is leader of the troop and assistant leaders are Robert Southard and Charles Miller.

Announcement Expected

London, July 9 (AP)—A royal announcement was expected momentarily today that Princess Elizabeth, heiress presumptive to the throne, would be married this fall to Lt. Philip Mountbatten, who renounced a Greek title for a minor commission in his prospective father-in-law's navy. The authoritative British Press Association said it had learned "from official sources at Buckingham Palace" this afternoon that an authorized statement will be made within the next day or two regarding reports of the betrothal which will clear up the whole matter.

Hickenlooper Says Atomic Files Stolen in New Mexico

Washington, July 9 (AP)—Senator Hickenlooper (R-Iowa) told the Senate today secret files were stolen from the Los Alamos (N.M.) atomic energy testing grounds, but said he has "no reason to believe" they fell into unauthorized hands.

Hickenlooper, chairman of Joint Senate-House Atomic Committee, said "the Atomic Energy Commission did report to the joint committee there were certain missing atomic energy files at the Los Alamos project in New Mexico."

He said the incident occurred when two army sergeants took the documents with them when they were demobilized.

The F.B.I. was notified at once, he said, and promptly located the two men and "the documents were as we believe completely and fully recovered."

They had been held in the private files of the two men, whom he characterized as "souvenir hunters." The joint committee, he believes, Hickenlooper said, "there

was no effective breach of security."

"We have no information that any unauthorized persons did see these documents other than the two army sergeants," he said, adding that the Justice Department is still investigating. He added:

"The joint committee, the Federal Bureau of Investigation, the military and naval establishments are all keenly aware of the transcendental importance of the security of the facilities of the Atomic Energy Commission."

Hickenlooper told his colleagues the committee has no reason to believe published reports that files have been stolen from the Oak Ridge (Tenn.) project.

The New York Sun, in a dispatch from its Washington bureau reported today that highly secret data on the atomic bomb had been stolen by unidentified agents working from within the Oak Ridge plant.

The joint committee has no information on this subject and no reason to believe that highly classified, secret documents have been stolen," Hickenlooper said, in referring to the Sun article.

New York City

Produce Market

New York, July 9 (AP)—Butter 808,106; easy. Wholesale prices on bulk cartons. Creamery, higher than 92 score and premium marks (AA) 67 1/2-68 1/2 cents. 92 score (A) 66-66 1/2, 90 score (B) 65 1/2, 89 score (C) 64 1/2. (New tubs usually command 1/2 cent a pound over the bulk carton price.)

Cheese, 609,467; steady. Wholesale sales, fresh American cheese (whole milk) cheddars, twins or larger sizes, per lb., 28 cents.

Single daisies 39 1/2-40 1/2. Flats 38-40. Cheddars (grass 1946) 57-61. Flats and twins (grass 1946) 57-61. Processed 5 lbs. 37 1/2-38 1/2. Domestic Swiss (single tubs) best 53-55, others 40-52.

Eggs 22,036; steady, priced unchanged.

Warehouse Burns

Camden, N. J., July 9 (AP)—Fire swept a three-story warehouse two blocks from the Camden waterfront and forced the evacuation of more than 300 persons from nearby homes early today. One-half of the building was used by the Morris Bloom Co., as storage space for frosted foods and produce. The other half was occupied by the Courtland Manufacturing Co., as a warehouse for toys and toy parts. No official damage estimate was available immediately.

Will Adhere to Charter

Bucharest, July 9 (AP)—The Romanian foreign minister was empowered by the cabinet today to seek Romania's entry into the United Nations. Romania will issue a declaration adhering to the United Nations Charter.

Pope Gets Television

Vatican City, July 9 (AP)—Pope Pius XII, whose past journeys by plane and use of modern devices have given him a reputation for keeping up with the times, is soon to have his own television set, the Vatican News Service said today.

Ohio State Splash

Columbus, O., July 9 (AP)—State captured 19 places on the 1947 All-America swimming team.

Girl Camper Sought In New Hampshire; Her Horse Returns

Nadia Evans, 13, May Have Gone to Her Home in Massachusetts, Police Say

Wilmot Center, N. H., July 9 (AP)—Abandoning an organized search for Nadia Evans, state police said today they were convinced the 13-year-old daughter of an internationally known physicist had left a summer camp here voluntarily and was on her way home.

Maj. Dwight Comstock of the state police said that they had received a report she hitch-hiked an automobile ride to Newbury about 10 miles from here—with the intention of taking a train to Boston.

The girl's father, Prof. Robley D. Evans of Massachusetts Institute of Technology, said he was encouraged by reports that his daughter had apparently escaped injury but he had not heard from her at 11:30 a. m. (E.D.T.).

She was reported missing yesterday when her father was viewing the search for her in the woods. She probably has gone home.

Prof. Evans was notified of his daughter's disappearance only 15 minutes after he arrived from England where he had attended a scientific conference.

State police, who at first expressed belief the girl had been thrown from the horse and possibly seriously injured, later changed that version.

State Police Lt. Archie M. Brown reported after viewing the scene that there were indications Nadia left the animal voluntarily and possibly started for a main highway five miles distant.

Appeals Are Made

Washington, July 9 (AP)—Ex-Congressman Andrew J. May and munitions makers Henry and Murray Garson appealed today for a new trial on grounds their July 3 bribery convictions were "unfair" and the result of "prejudice." The three contended there was insufficient evidence to warrant their convictions on charges that the Garsons conspired to buy and May agreed to sell his wartime services as chairman of the House Military Committee for more than \$50,000.

Pledge Is Given

Jerusalem, July 9 (AP)—Irgun Zvai Leumi, Jewish underground organization, informally pledged itself today to defer any "revenge actions" until the Palestine high commissioner has ruled upon the death sentences imposed upon three of its members. The sentences, pronounced by a military court on June 16, were confirmed yesterday by Lt. Gen. G. H. A. MacMillan, commander of British forces in Palestine, and observers said feared that the underground might carry out threats of reprisals. The sentences still must be confirmed, however, by Gen. Sir Alan Gordon Cunningham, the high commissioner, before they can be executed.

Patrolman Is Recovering

New York, July 9 (AP)—Patrolman Daniel B. Murphy, 29, wounded in a gun battle with a bandit he shot and killed in a crowded 42nd street bus, was reported in satisfactory condition today at Roosevelt Hospital. Two bullets were removed from the policeman and he was given blood transfusions. Mrs. Viola Murphy, his attractive 22-year-old wife of three months, left the hospital happy and smiling late yesterday after an all-night vigil following the shooting Monday. "My husband is going to be all right," she said.

Sell-Out Crowd Assured for Thursday's Amateur Boxing Show

Local Talent Helps Swell Demand for Ringside Seats

That the local talent show is a great boon as a supporting card to the Tony Barone-Eddie Morton main bout on B'nai B'rith fistic program at the municipal auditorium, Thursday night, is reflected in ringside reservations.

Dr. Murray Greene, box office supervisor, said today that orders were pouring in for choice seats, which are going fast, and predicted that there would be few left when the doors open tomorrow night. Starting time is 9 o'clock.

Barone, who has been training diligently at his Schenectady gym, is anxious to defeat his Albanian opponent, a rugged ringman, and one of the hardest-hitting welterweights in the state.

Morton decided Tony at the auditorium once, and hopes to do it again, figuring on a knockout. However, Barone's record shows two wins over the Albanian, which indicates the skirmish probably will go the limit, with plenty of fiery action.

In order to give sectional favorites their night of nights, Director of Bouts Ben M. Becker, stacked the supporting B'nai B'rith bill with local boxers.

Here's how the card shapes up:

Five Rounders
Dave Brandon vs. Tommy "Tiger" Davis, two Kingston middleweights in a challenge match.
Joe Speed, Cleveland Golden Gloves champion, now residing in Kingston vs. Johnny Gibson, Albany lightweight.

Joe Ausanio, Kingston middleweight, now under direction of Tommy Zano, former welterweight contender vs. Leo West of Havana.

Three Rounders
Barney Emberson, St. Remy featherweight vs. Pat Saruth, Schenectady.

Val Panaccione, 150, Kerhonkson vs. Johnny Chaplain, Albany.
Joe Penzato, 120, New Paltz vs. Chris Miller, Kingston.

The scheduled bout between Carl Reinhardt, Newburgh heavyweights, and Neil Soudyke of Kerhonkson had to be cancelled today because of Soudyke's injury training, reported by Ken "Dutch" Taylor, his handler.

Paul Simpson, junior national heavyweight champion, who moved in from Cleveland, will be introduced from the ring, along with Al Chavez, flyweight contender, training in Woodstock for a bout in Glasgow, Scotland, late in August, when he is to meet Jackie Paterson.

Post Tops Tuesday Night League With 623 High Triple

With Roland Post showing the way with a 239 single and 623 triple, the Freeman trundlers scored a double win over Jacks in the Tuesday Night League at the Central Rec. Janes, Post posted other games of 181 and 204. Jacks followed Post for the winners with 532.

Dick Howard, after hitting 175 in the opener, came back with a flourish and hammered 249. Dick wound up with a 533 triple, second high for the night.

In the other game the Unknowns won a pair from the Stars. Fred Ferraro and Ed Norton sparked the winners with 216-555 and 191-548. Chris Robinson's 533 was high for the Stars.

Other 500 triples rolled Tuesday night included "Boots" Leskie's 191-535, Elwood Robinson 195-516 and J. Kwasney 188-507.

Lamb Wins Title
Oakland, Calif. July 9 (AP)—Frank Lamb of London, England, last night won the Men's World Two-Mile Roller Skating Speed Championships in Oakland Auditorium, flashing around the 24-lap course in the spectacular time of 6:30.5.

Patricia Carroll, Elmhurst, N. Y., won the world's women figure skating title with a sparkling free skating program added to her performance in the school figure routine.

Jones Seeks Sixth Straight Win Tonight

Dodgers Idle but Lead Is Increased; Home Thursday

ECHOES OF THE REGATTA: Or how Dorothy Mayer, the College Point mermaid who is wired for speed, upset once and for all the Paleolithic theory of the "weaker sex" . . . Or how the sports editor nearly lost his palm beach coat in the Hudson river while gallantly lifting a fair damsel from a yacht. . . The officials and members of the Kingston Power Boat Association can now once from the waist for a magnificent spectacle. . . Attendance estimates vary from 5,000 to 7,500 but whatever they were, we feel too many Kingstonsians missed a great show.

Seldom have we been accorded such gracious hospitality and treatment. . . Commodore John Glennon, Secretary Vernon Radol and the KPBA workers saw their tireless efforts fulfilled in a spectacular water carnival that will some day put Kingston on the sports map. . . Those men hard by the Rondout creek have vision, faith in their mission and they just can't miss becoming big time in their chosen field. . . Next year we hope 10,000 or more persons turn out for the regatta. . . To the neophyte, it is a magnificent show. . . We were witnessing our first one and enjoyed every minute.

Faye Gets New Cap . . .
Smiling and beaming all over the terrain was Jack Faye, his brand new "Honorary Commodore" hat hanging at a rakish angle atop his head. . . Faye, the godfather of the KPBA, personally supervised the ferrying of the officials and honorary judges across the waters from the clubhouse to the reviewing stand. . . The working judges scorched in the sun to do a real job of recording the events. . . The honorary judges as usual, were under a canvas top, imbuing enormous quantities of liquid refreshments. . . There was never any danger that the float on which the official stand was situated would sink. . . The liquid displacement top and bottom was strictly even, and we are not mentioning any names, but you could tell them by the bend of their elbows. . . Oh, for the life of an honorary judge at a KPBA regatta!

Names to Remember . . .
The entries were big time. . . Vic Scott, the Albany-to-New York winner, Joe Steger, Emil Mayer, of College Point's outboard family. . . A flock of others you'll find in the Who's Who in outboard racing. . . More than 45 craft reflecting the growing popularity on the feature. . . We enjoyed a vantage point aboard Don Schryver's yacht. . . William C. Schryver, one of the truly great baseball sponsors of Kingston, taking "moon pitchers" of everybody. . . Chatting with Mr. Schryver, turned back the years to the old Fair Grounds, when a crisp five-dollar bill availed the Schryver slugger who could belt over the fence. . . Ed Coughlin kept pouring coconuts at us. . . It must have been of ancient vintage. . . It seemed awfully pale in comparison to some of the coconuts we have seen.

Dorothy Mayer and Marjorie Clark, the two female entries, jockeyed like a couple of wildcats in the Class M race and the crowd roared its approval. . . Petite but rugged, these girls. . .

We congratulate the Kingston Power Boat Association on its splendid achievement. We hope that by next year the sports populace of the city will have become conscious of the great spectacle in KPBA sponsorship. . . The slogan for 1948 should be "Ten Thousand Spectators or Bust." The slogan for 1948 should be "Ten organizations and the C. of C. it can't miss."

AND, as the repressed wife said when her husband hit the deck, "Pardon my flying saucer!"

Twenty Years Ago: Blue Sox defeated Catskill, 9-5. Tommy Lewis and George Bush shared pitching duties. "Chick" Stunhiller cracked triple and two singles for winners. . . Tannersville edged Blue Sox, 5-4, despite single, double, triple by Ralph Williams. . . Joe Coughlin pitched Wilbur Feds to 5-3 decision over Ponceia, Hank Cragan clouting homer with two on. . . Clermonts 8, Washingtons 3. . . Top and bottom in American League: Yankees 54 and 21, Red Sox 17 and 54.

AND, as the repressed wife said when her husband hit the deck, "Pardon my flying saucer!"

Davis Cracks 662 In Summer Classic; Smashes 245 Single

Finding the Central Recreation alleys much to his liking Monday night, Bill Davis, leadoff kegler for the Village Rest trundlers, responded in no uncertain terms with a perfect game of 245 and a 662 triple. Both were high for the night in the Summer Classic League.

Davis opened with a 185 single and then fired his brisk 245 single and finished with a 232 single. Davis' top-flight kegling paced the Village Rest to a clean sweep over the Hofbrau as the winners took a high 1035 team single and 3016 team triple.

Larry Peterson, Sr., and Ad Jones occupied the secondary limelight on worthy scores. Peterson cracked a high single of 233 and a 663 series while Jones poured out a top single of 221 and three-time of 533. Peterson smashed three 200 games on a string of 233-212-208.

Other worthy scores registered in Monday's bowling included Ray Roux with 200-588, Harold Broskie 205-587, Hod Spaulding 213-585, Orr Van Alstyne 202-584, Charlie Davis 213-577, Johnny "Red" Schatzel 203-577, Larry Peterson, Jr., 211-569 and Larry Weishaupt 210-560.

Aid to Married Couples
Harrisburg, Pa., July 9 (AP)—Married couples in Pennsylvania are expected to save \$100,000,000 in federal income taxes by enactment of a state community property law. Governor James H. Duff signed the much-discussed single-income tax bill yesterday. He said the \$100,000,000 saving annually for married couples "cannot possibly be overlooked." The measure, establishing the community property principle in the commonwealth—33rd state to enact such legislation—permits a husband and wife to divide the family income, although the husband may earn it all, and file separate federal income tax reports, each for one half of the family earnings.

Three City Softball Tilts Are Slated

Three games are on tap for tonight in the City Softball League. The Subway Grill No. 1 mushers meet the Village Rest at Army No. 1. Jacobs engage B'nai B'rith at Block Park and Berardi's Oilers play the U. S. Lace Curtain Mills squad at the Army No. 2 diamond.

Vanquished Nationals Still Puzzled Over Toughness of American League

Chicago, July 9 (AP)—The National League, whipped in the 14th All-Star major league game, still wondered what makes the American League so tough.

Jubilant Joe Cronin, who directed the American League to a 2-1 triumph for their 10th victory against only four defeats before 41,123 at Wrigley Field yesterday, could point to several reasons.

One might be the hell-bent-for-destruction base-running of Cronin's own Boston second baseman, Bobby Doerr, who scored the decisive run in the 7th.

The weatherman caught up with Manager George "Sugar" Scherger and his Kingston Dodgers again Tuesday night but the idleness was profitable at least as far as the North Atlantic League standings were concerned. While the Dodgers were having a night off they saw their league lead jump to seven and one-half games.

Kingston will be in Stroudsburg again tonight in the scheduled finale of the brief two-game series. Then Scherger and his troupe will return to the friendly confines of municipal stadium for a single game here Thursday night with Nyack.

Game time is 8:30 o'clock. After the singleton with Nyack tomorrow night, the Nazareth Tigers come in for a two-game series with the Dodgers on Friday and Saturday night.

The Bloomingdale-Nazareth tilt was rained out last night in addition to the Kingston-Stroudsburg contest. Outside of Carbondale's easy victory over Peekskill, the only other action found the lowly Nyack club hammering out a 5 to 2 win over Mahanoy City.

The standings:

Team	W	L	Pct.	GB
Kingston	41	18	.695	
Peekskill	38	31	.551	
Carbondale	33	31	.516	
Stroudsburg	30	33	.476	
Mahanoy City	29	34	.460	
Nazareth	29	35	.453	
Nyack	28	34	.452	
Bloomingdale	25	37	.403	

This Week's Schedule
Tonight—At Stroudsburg.
Thursday—Nyack, here 8:30 p. m.
Friday—Nazareth, here
Saturday—Nazareth, here

Leaves for Washington
New York, July 9 (AP)—Denny Kaplow, Brooklyn welterweight, left today for Washington, D. C., where he fights Smuggly Hursey in an outdoor 10-round Monday night. Washington promoters anticipate a gate of more than \$50,000 for the bout.

Dinner for 2,700
A total of 2,700 persons attended the official banquet of the 1947 convention of the American Red Cross held in Cleveland June 9 to 12.

Fireman Joe Page of the New York Yankees, who was called upon to dispose of the two big bad National Leaguers, Mize and Enos Slaughter of the Cardinals in the eighth inning. Page was

nicked by Mize for a single, but he forced Slaughter to bounce out to end the eighth with National Leaguers on third and first.

The National League mound parade included Harry (The Cat) Brecheen of the Cardinals, Sam and Warren Spahn of the Braves and Cronin had five "iron-men" performers, including Terrible Teddy Williams of Boston, whose single in the sixth moved Apple from first to third and enabled him to score on a subsequent double-play. Joe Di Maggio of the Yankees; Lou Boudreau of the Indians; George McQuinn, Yankee first baseman; and catcher Buddy Rosar, Philadelphia's only member of the American squad.

41,123 at Classic
Slaughter was the only National League to go the route. The crowd of 41,123, although the sixth largest in the game's history, contributed a record net take of \$105,314.90, most of which is earmarked for the players' pension fund.

After Newhouse, came Shea, Walt Masterson of Washington

and Fireman Joe Page of the New York Yankees, who was called upon to dispose of the two big bad National Leaguers, Mize and Enos Slaughter of the Cardinals in the eighth inning. Page was

nicked by Mize for a single, but he forced Slaughter to bounce out to end the eighth with National Leaguers on third and first.

Dodger Slugger

WALT KOWALSKI

Walt Kowalski, the hard-hitting slugger of the Kingston Dodgers, is the current No. 1 batter for the league-leading North Atlantic League club with a .319 average, according to statistics released by Harry Simmons, league statistician.

Kowalski, who has appeared in 34 games, has cracked out 22 hits in 138 trips and has scored 29 runs. In the extra-base department, the "hot corner" operator has collected four homers, six triples and five doubles. He has batted in 23 runs thus far. Carl Sawatski, Bloomingdale, tops the league with a lustrous .404 average.

Kingston leads the loop with a club average of .275, just four points higher than Nazareth with .271. (Freeman Photo.)

Forbes Chief Wins Saratoga Grand Circuit Feature Race

Saratoga Springs, N. Y., July 9 (AP)—Forbes Chief, an Octavo Blake stable entry, captured the \$6,000 National Stake, a Grand Circuit feature, last night at the Saratoga Raceway.

Forbes Chief, from South Plainfield, N. J., took both heats, beating Goose Bay, champion two-year old of 1946.

Goose Bay finished third and second in the field of three-year-old pacers.

To Defend Title
Spring Lake, N. J., July 9 (AP)—Frank A. Parker of Los Angeles, third ranking tennis player in the nation and winner of the 1946 Spring Lake Bathing and Tennis Club Invitation Tournament, will begin defense of his title today in the 10th annual event here. Parker, who has consistently captured the championship since the inception of the tournament and who has defeated the Clifford Memorial champion of the Cardinals in the process, meets Dan Gallagher of Germantown in the second day of play.

Leaders to Engage 7-Up; Tuesday's Contest Rained Out

Jones Dairy, victors in five straight City League clashes, will try to make it a half dozen in a row tonight at the expense of the 7-Up nine at the Athletic Field. Game time is 6:15 o'clock.

Last night's scheduled game between the Knights of Columbus and the Hofbrau was washed off the boards due to rain.

Tonight's important contest is one of the two tilts which highlight the remainder of this week's City League schedule. Thursday night Morgan's Restaurant will cross bats with the Hofbrau combine in a game which promises plenty of action at the Smith avenue ballpark.

Although pitching choices have not been definitely announced for tonight's tussle, Manager George Zadany of the Hofbrau, is expected to send his meek-ticker, Bill Windburn, to keep the streak going. Either Tommy Watzka or Hank Secreto will toe the slab for 7-Up.

City League fans also are anticipating tonight's clash with hopes of seeing Charlie Beck of Jones Dairy continue his great hitting. Beck at this writing, is leading the dailymen with a tremendous .600 clip. The former Kingston High School star has collected six bingles in 10 trips to the plate. Beck is expected to play the keystone bag for Jones tonight.

Tentative Lineup
The rest of the league leaders lineup should find Johnny "Daisy" Schatzel at first, Andy Celuch at third and the reliable Chappie Van Der Zee at short. Johnny Secreto, Tommy Maines and Elmer Hoppy will patrol the outer pastures. Manager Zadany will be on the receiving end of Windburn's slants.

The 7-Up club, a robust hitting combine which would like nothing better than to snap Jones' streak tonight, will take the field with Marable at first, DeCicco at second, Gardoski at third and L. Secreto at short. The outfield will have Ralph Tiano in left, Parisio in center and McCullough in right.

Drunk Driving Is Still Leading Traffic Problem

Drinking by Drivers and Pedestrians Is Growing Traffic Safety Problem

The following article was written by W. Earl Hall, chairman, National Committee for Traffic Safety in connection with the national highway safety program of the State Press and Publishers Associations:

Drinking by drivers and pedestrians is a growing traffic safety problem. The most recent records of state authorities show that in one out of every four fatal traffic accidents, a driver or a pedestrian was reported as having been drinking.

Special studies bear out the belief of many authorities that the information on official accident reports understates the true picture. Surveys involving chemical tests of blood or other body fluids of drivers tested who had been injured or killed in traffic accidents showed that half of the drivers had alcohol in their systems. About one third of all the drivers tested had sufficient alcohol to be under its influence.

Results show that the greater the concentration of alcohol in a person's system, the greater the danger. A person with a blood alcohol concentration of over 15 per cent has a relatively poor chance of staying out of an accident. The average driver in this range is 55 times more likely to be involved in an accident than drivers with no alcohol.

The public is well aware of the dangers of driving after drinking. In a public opinion poll for the National Committee for Traffic

Safety, each person interviewed was asked which of ten listed factors caused the greater number of accidents, in his opinion. Driving while under the influence of intoxicating liquor ranked number one.

Perhaps the main stumbling block in getting better enforcement of drunken driving laws in most places has been the difficulty in determining whether drivers actually were under the influence. So much difficulty has been experienced in some places in convicting drivers who are under the influence but not "staggeringly drunk" that enforcement has been directed at only the most obvious cases.

Many progressive enforcement agencies, however, have turned to use of chemical tests to provide the needed additional evidence. Such tests show definitely whether there is sufficient alcohol in the blood stream and brain to cause intoxication. Their use eliminates guesswork by showing whether a drinking driver has enough alcohol in his system to be legally under its influence.

Test results do not measure how much a person has been drinking—they show instead, how much has been absorbed in the blood stream and how much gets to the brain. It is the concentration of alcohol in the blood stream and brain, and not the amount in the stomach, which bears a definite relationship to degree of intoxication.

The use of such scientific tests was recommended by the President of the Highway Safety Conference of 1946. National organizations which have long advocated use of chemical tests for alcoholic influence include the American Bar Association, American Medical Association, Federal Bureau of Investigation, International Association of Chiefs of Police, National Safety Council and the National Conservation Bureau.

Despite the technical and promotional work of these groups, there are still jurisdictions which regard chemical test evidence in somewhat the same light as the lie detector—a "new-fangled gadget." Many cities, however, notably Cincinnati, Cleveland, Milwaukee, Kansas City, Detroit, Washington and Indianapolis, use chemical tests as routine practice. A recent tabulation showed 62 cities over 10,000 population reporting use of

Bleeding Canker Weakens Trees in Ulster Sections

Monroe, N. Y., July 9—Bleeding canker, a fungus disease which sickens a tree and so weakens it that it is a push-over when insects or other diseases invade it, is extremely prevalent in the eastern part of New York state, west of the Hudson.

In the Tuxedo and Kingston areas alone, many of the hardwoods are affected by this disease. W. C. Hall, area manager of the Bartlett Tree Expert Company, said today, in some areas in Rockland, Orange, Ulster and Sullivan counties, one out of every four trees shows symptoms of bleeding canker, Mr. Hall estimated.

A combination of circumstances has created conditions favorable for the infection, Mr. Hall listed these as heavy clay soil, severe droughts the past few years, and the fact that in many areas forest fires have weakened the trees.

Bleeding canker seldom kills a tree, but it so debilitates a tree that it becomes readily susceptible to a "killer" disease or insect invasion, such as the two-lined chestnut borer which can finish off a tree in no time.

Bleeding canker spreads under the bark longitudinally, eventually reaching from the roots to the extreme tips of the branches. Frequently it manifests itself in such trees as maples, beeches and horse chestnuts and oaks in bleeding lesions or cracks on the bark. The tree also exhibits yellowed foliage, die-back of limbs and a general appearance of chronic ill health.

Injection: Only Treatment Spraying or pruning is useless. Tree experts have found the only direct method of treatment is by injection. This means injecting anti-toxin chemicals into the tree's vascular system to antidote the toxins set up by the fungus disease.

There are two methods of injection commonly used. One is forcing the chemicals under pressure into the soil so they can be quickly absorbed by the hair root system of the tree and carried up into the tree itself. The other is by boring holes in the tree's trunk, and through the use of inverted bottles permitting the chemicals to enter the vascular system by the drip method.

But injection treatment must be accompanied by feeding. Mr. Hall said, to revitalize a tree and return it to normal health. Homeowners often are inclined until the disease has reached an advanced stage before they become alarmed. Best bet is to consult a tree expert early.

Germany's "pocket battleships" cost her about \$1850 a ton to build.

BETTER HEARING

HARRY B. MOONEY
Authority on Deafness
GOVERNOR CLINTON HOTEL
Thursday, July 10, 1947
10 a. m. to 5 p. m.
Consultation at your home by appointment.

You owe it to yourself to call on me, telephone, or write to invite me to call at your home at your convenience. For many years I have helped the hard of hearing understand conversation, but never before have I had a hearing aid that does as much as the new Acousticon Imperial.

Sometimes, in a lifetime, a great and history making discovery takes place that deeply affects millions of men and women. We have 1800 years to see such a discovery in our own lifetime.

It is a discovery that in actual use is changing every idea about what a hearing aid can do—and is bringing such astonishing results, that many of my hard of hearing friends who are already using it can only say one thing: "It has brought me the kind of clear, perfectly-toned, relaxed hearing that I never expected to experience again—it is the most wonderful thing I have ever known in my life."

These men and women are talking about the discovery and use of the new added improvement to our hearing aid, an improvement which will eliminate all the unpleasant, outside noise that bothers so many hearing aid users.

The new ACOUSTICON IMPERIAL is unlike any other hearing aid you have ever seen or used. It changes every idea you ever had about the size, power, performance and beauty of a hearing instrument. It is so tiny that it is almost as thin as a fountain pen, and only about half as long.

I believe, in all truth, that the ACOUSTICON IMPERIAL is so remarkable that I am holding a special FREE CLINIC to show and demonstrate this very powerful instrument. At no cost or obligation to you, you can see and hear the astounding ACOUSTICON IMPERIAL. For your own future hearing happiness, please make a careful note of the time and place.

Governor Clinton Hotel, Thursday, July 10, 1947. 10 a. m. to 5 p. m. Consultation at your home by appointment. Remember—this clinic is FREE—personal, private consultation with absolutely no cost or obligation to you. In your own vital interest, I would like to urge you to attend this clinic.

Judges, Legislators Will Get More Money

Harrisburg, Pa., July 9 (AP)—All judges in Pennsylvania and members of the legislature are going to get more money.

Governor James H. Duff signed into law yesterday legislation increasing judicial salaries from the

Supreme Court down 17 to 20 per cent for a total of \$839,000.

He also approved another bill allowing each of the 258 members of the legislature \$1,200 a year for expenses and clerk hire in addition to their two-year salaries of \$3,000 for regular sessions of the assembly. The expense allowance added \$615,000 to the biennial legislative cost.

MOSQUITOES

Don't Come Near You. The people of MONROE, N. Y., are free of mosquitoes. Mosquitoes don't come near you. The only way to keep mosquitoes away is to use MOSQUITO COILS. Buy them at the MONROE MOSQUITO COILS.

matter of increasing the number of trustees be voted on.
Johnson Reads Letter
District Superintendent Ralph H. Johnson read a letter from the legal department of the New York State Education Department in which the department suggested that the vote on election of two trustees to fill expiring terms be the next order of business and that the vote then be taken on the proposal to increase the number of trustees.

Objection to the letter was expressed by the group of which Walter Byrnes acted as chairman, but after a conference between counsel for the two factions the matter was adjourned and the vote on election of trustees followed.
David W. Corwin, present member of the board, defeated Louis D. B. LeFevre by a vote of 418 to 217 and Henry Moritz was re-elected over Thorborg Eljason by a vote of 368 to 237.

Apparently following the vote on increasing the number of trustees from five to nine, interest in the meeting ceased and many left the building for when it came time to vote on adoption of the annual budget only 58 votes were cast, 5 in favor and 3 against, with one void ballot. The budget for the ensuing year is double that of the past year when \$40,000 was raised by direct taxation and for the ensuing year it will be necessary to raise under the new budget, \$80,000.

When a meeting there were expressions among many who attended the meeting that apparently the defeat of the proposals of the Citizens' Group, including the proposition to increase the number of members, had proven beyond a doubt that the action of the Board last spring in declining to offer a new contract to Mr. Cunningham had the sanction of the majority of the people of the district and that the Cunningham matter was dead.

When it became known last spring that Principal Cunningham was not to be offered a contract again, a group of citizens sought to influence the Board to offer him a contract. When that was declined by the trustees the students of the school demonstrated and paraded through the village until Mr. Cunningham asked them to return to their studies. Petitions were then circulated in an effort to re-instate Mr. Cunningham and since then the matter has been widely discussed in the district.

Declines Any Action
The Board has at all times declined to reconsider its action and maintained that there were sufficient grounds for its action. Members declined to discuss the reason and recently a statement was made to taxpayers at a public meeting that the Board took this stand in order not to embarrass Mr. Cunningham should he seek another position. Mr. Cunningham has been with the district since 1928 and his contract expired as of July 1, 1947.

Move to Freeze Rents
New York, July 9 (AP)—A local law to freeze rents for permanent tenants in hotels, apartment houses and rooming and lodging houses, already approved by the City Council, will go to the Board of Estimate late today for approval. For tenants who had occupied rooms for "not less than 90 days" immediately prior to July 1, 1947, rents would be frozen at the June 30 level, under the law. Sponsors estimated 250,000 tenants would be covered by the measure. Approved 19 to 1 by the City Council yesterday, the measure also establishes a three-man temporary city housing rent commission for administration and for adjusting inequities.

Leaves From Boyle's Notebook

(Hal Boyle, returning from a two-day absence, insists he is the first man to have been alive from a trip on a flying saucer. You may take his story or leave it. But we are turning down his expense account for \$2,880, which is what five cents a mile comes to after 48 hours in his 1,200-mile-an-hour conveyance.)
By HAL BOYLE

New York, (AP)—Safe!
Safe after 48 hours and 57,600 miles in a flying saucer from Mars! And now I can tell the world the full story of what happened after Balmiston X-ray O'Rune, the eight-foot, green-haired Martian pilot, snatched me off a bar stool and took me riding in a space ship. You will remember that Balmiston—I got to calling him "Balmi"—and 499 other Martian pilots came here in flying saucers on a universe-wide "treasure hunt" sweepstakes. The game was to find and take to Mars Orson Welles and eleven other difficult to catch such as a whalebone stay from Queen Victoria's coronet.

"Let's go look first for the lost gold tooth of Magellan," said Balmiston, after a few warming-up trips across the continent. "We can pick up Orson Welles later." He poured in a fresh bottle of anti-gravity fuel, wound up the anti-gravity friction-repeller, and our seven-story flying saucer, which I had at twenty miles a minute, sped. "Air trips bore me—you raise so much of the scenery," yawned Balmiston, scratching at a hangnail on his three-clawed hand. "What would be the result if we hit the Eiffel Tower?" I worried. "Scattered confusion," quipped Balmiston. Suddenly he grabbed the wheel from my hands and spun it wildly. "You almost ran over a jet plane, you earth dope!" he said, but quickly apologized after I muttered: "Okay, you backseat-driving fellow from Mars. I haven't noticed you sticking out a claw on the turns."

Handled Beautifully
The flying saucer handled beautifully. I leaned back and began to whistle through the top of my head. "I think I'll take you up to Mars and introduce you to my sister, Violet O'Rune," he said. "She's always complaining I never introduce her to any of my friends. She may take a liking to you. Nice girl, too."

Police Investigate Burton Rose Death
Found Dead in Chef's Room, Vassar Hospital
An investigation into the death of Burton Rose, 43, of 163 North Hamilton street, Poughkeepsie, is still being conducted following the finding of his body early Tuesday morning in his room of the chef's building of Vassar Hospital, Prospect street and Reade place. Mr. Rose was employed as a dishwasher at the hospital.

Woman's Body Found by Maid In N. Y. Apartment

New York, July 9 (AP)—The nude body of a tall, blonde woman whose identity was not immediately learned was found today in a West 57th street apartment, police said, with a bed sheet knotted about the throat and a bloodstained towel in the mouth. A maid who discovered the body told police that the woman was known to her as Bessie K. True, Luggage bearing the initials "B.K.T." was found in the apartment.

Police said the woman was also known as Sheila Manning to other residents of the apartment house and had used at least one other name. Homeless investigators said they found a cigar butt in a smoking stand within the apartment.

The maid, Laura Rayfield, who worked on a part time basis, said she entered the apartment at 9 a.m., saw a light in the bathroom, found a radio playing, and then discovered the body, sprawled on the bedroom floor. The body was face up between twin beds. Her features had been beaten and an ambulance doctor who examined the body said she had been dead some time.

Deputy Chief Edward J. Mullins, in charge of West Side detectives, said one bed was not disturbed, but that there were brownish stains on the spread of the other bed and that a sheet from it apparently had been used in the strangulation.

Treaty Is Signed
Rome, July 9 (AP)—Italian Foreign Minister Carlo Sforza and Philippine Vice-President Elpidio Quirino today affixed their signatures to a treaty of friendship and general relations between the two countries. The past preliminary negotiations provided for diplomatic and consular relations, conciliation and arbitration of controversies and party of treatment for Italians in the Philippines and Filipinos in Italy.

said, "Just like flying geese." In any event, it must be conceded that Mr. Davis has come up with a new twist.

'Saucer' Is Balloon
Fort Worth, Tex., July 9 (AP)—An examination by the army revealed last night that a mysterious object found on a lonely New Mexico ranch was a harmless high-altitude balloon — not a grounded flying disc. Excitement was high in disc-conscious Texas until Brig. Gen. Roger M. Ramey, commander of the Eighth Air Forces with headquarters here, cleared up the mystery.

The bundle of tinfoil, broken wood beams and rubber remnants of a balloon were sent here yesterday by Army Air Transport in the wake of reports that it was a flying disc. But the General said the objects were the crushed remains of a ray wind target used to determine the direction and velocity of winds at high altitudes.

The weather balloon was found several days ago in a desolate section of New Mexico by a rancher, W. W. Brazill. He said he didn't think much about it until he went into Corona, N. M., last Saturday and heard a flying disc report. He returned to his ranch, 83 miles northwest of Roswell, and

recovered the wreckage of the balloon, which he had placed under some brush. Brazill hurried back to Roswell, where he reported his find to the sheriff's office.

The sheriff called the Roswell air field and Maj. Jesse A. Marcel, 509th Bomb Group intelligence officer, was assigned to the case. Col. William H. Blanchard, commanding officer of the bomb group, reported the find to General Ramey and the object was flown immediately to the army air field here. Ramey went on the air here last night to announce the New Mexico discovery was not a flying disc.

Officers said that when rigged up, the instrument "looks like a six-pointed star, is silvery in appearance and rises in the air like a kite."

Decree Becomes Final
A decree annulling the marriage of Bertha Strube to Harry Strube entertained in the Ulster County Clerk's Office in March last has become final. The plaintiff, Bertha Strube, was represented in the action by Attorney Chris J. Flanagan.

New York Adopts Pill Regulations

Board of Health Would Stop Sleeping Pill Deaths

New York, July 9 (AP)—The city's board of health, in what it said was a move to prevent accidental deaths due to the use of sleeping pills, has adopted new regulations for the sale and distribution of such drugs, to become effective November 1.

The board's announcement said the rules, adopted late yesterday, prevent a druggist from refilling a prescription for sleeping pills unless a doctor orders it in writing and specify the number of times and at what intervals the prescriptions may be filled.

Pharmacist spokesmen had opposed the new controls as unnecessary.

Floods Are Subsiding

Philadelphia, July 9 (AP)—Flood waters of the Schuylkill river were subsiding today after a brief rampage that killed several eastern Pennsylvania coal operations and damaged crops. The flow over Flatrock Dam here crested during the night at 52 inches, 23 inches below flood stage, and had receded an inch by 8 a. m.

Actress Is Freed Under \$5,000 Bond; Hearing Date Set

Los Angeles, July 9 (AP)—Actress Madge Meredith, 26, arraigned on charges of kidnapping, robbery and assault with a deadly weapon upon her former manager, Nicholas Gianclis, 38, was at liberty under \$5,000 bond today pending a preliminary hearing next Friday.

William Klinkenberg, 32, a cook; Albert W. Tucker, 29, nurseryman; and James Hatfield, former policeman, also face a hearing that day on similar charges.

Gianclis and his bodyguard, Verne Davis, alleged that at the actress' instigation, the trio attacked them June 30 as an outgrowth of litigation between Miss Meredith and Gianclis over a real estate transaction.

Red Cross Experts Give Up Search

State Also Will Abandon Efforts to Locate

John T. Hurn

Shellmound, Tenn., July 9 (AP)—Red Cross water safety experts

gave up their search early today for John T. Hurn after grappling in the underground Nickajack Lake for several hours.

The state planned to wind up today its part in the eight-day hunt in weird
